## Employment History

Software Developer Intern, Spaza! Tech

Aug 2018 – May 2019   📍 Pretoria

Overview of the role:

The Intern Software Developer is responsible for maintaining mobile and web applications on multiple operating systems. He or she has a strong understanding of end-user workflows and a passion for developing an elegant user experience.

Key Responsibilities:

- Coordinates with team leads to understand business and functional requirements related to end-user experience.
- Implements user-centered designs based on business and functional requirements
- Develops and tests mobile cross-platform and web applications solutions using multiple software development kits
- Incorporates end-user feedback into design and prototypes
- Captures software defects using bug tracking systems currently in place
- Continuously learns new practices, processes, technologies, and languages
