Software Developer Intern

Spaza! Tech

Overview of the role:

The Intern Software Developer is responsible for maintaining mobile and web applications on multiple operating systems. He or she has a strong understanding of end-user workflows and a passion for developing an elegant user experience.

Key Responsibilities:

- Coordinates with team leads to understand business and functional requirements related to end-user experience.
- Implements user-centered designs based on business and functional requirements
- Develops and tests mobile cross-platform and web applications solutions using multiple software development kits
- Incorporates end-user feedback into design and prototypes
- Captures software defects using bug tracking systems currently in place
- Continuously learns new practices, processes, technologies, and languages

Achievements

Nov 2018

Certificate of excellence for most outstanding system architecture

I received this certificate for my project "Outdoor Creative Voices Institute". A desktop application with Java and JavaFX to aid the management of a banking system using Object Oriented Programming and Design Patterns.

Apr 2019

Top Student: Interactive Development 300

I received the Top student award for the major Interactive Development in the school of Creative Technologies at The Open Window Institute.

Apr 2019

Top Student in School of Creative Technologies

I received the Top student award for best student out of all three schools within the School of Creative Technologies (Development, Design and 3D design). This was accompanied by a R50 000 bursary to complete an honours degree the following year.

Nov 2019

Certificate of excellence for most engaging honours research paper

I received this certificate for my research paper titled - ALGORIHTMIC BIAS IN SOUTH AFRICA: How incomplete and unrepresentative data caused by a history of Apartheid can be addressed to prevent systemic racial discrimination.
